LET'S CELEBRATE LIFE!

Ice Cocktail is our first specially elaborated cava made to be enjoyed with ice. A sensory trip to the essence of the Mediterranean. Freshness, brightness, aromas and flavours. The most refreshing experience of the summer. We recommend to serve it in a balloon glass with three big ice cubes. You can also give it a personal touch by adding mint leaves or thin slices of fresh fruit like peach or strawberries.

TASTING NOTES

With a pale yellow colour, and fine and elegant sparkles, it gives citric aromas of lime and orange on the nose as well as a tropical touch that reminds of mango. Fresh on the palate, fruity and slightly sweet, with tones of pastries provided by its long ageing, it has a long and enduring end.
